<sup>1</sup> Plans that provide some form of coverage during the period when you would typically pay 100% of your drug costs are indicated in the "Coverage in the Gap" column above. The percentage of "Generic" products and the percentage of "Brand" products covered in the gap are each separately calculated and the following descriptions are added: "All": 100% of drugs are covered through the gap, "Many": =65% to <100% of drugs are covered through the gap, "Some": =10% to <65 % of drugs are covered through the gap, "Few": >0% to <10% of drugs are covered through the gap (and must also be >15 products covered through the gap), "No Gap Coverage": 0% of drugs are covered through the gap (or =15 products covered through the gap). A label of "All Formulary Drugs" is applied for plans that cover 100% of "Generic" and 100% of "Brand" products (either by covering all drug products in the gap or by having no initial coverage limit). To view additional information about the type of coverage available during this period, please click the plan name in the table above and then click on "View important notes and benefit summary" in the window with the plan's information. If you personalize your search by entering your medications, the drug costs during the "coverage gap" will reflect this coverage.

<sup>2</sup> If you are approved for Full Premium Subsidy, you will not pay a monthly premium for the plans with a "Yes" in this column.

<sup>‡</sup> The organization that offers this plan offers at least one plan in all fifty states and the District of Columbia. Note: The specific plan(s) offered by this organization may differ from state to state.
